Springer International

Cell and Tissue Research

This journal was founded in 1924 as the Zeitschrift für Zellen- und Gewebelehre, from Vol. 2 (1925) it was published with the subtitle: Continuation of the Schultze-Waldeyer-Hertwig Archiv für mikroskopische Anatomie. Zeitschrift für Zellforschung und mikroskopische Anatomie (Vols. 1–20) (1934) as: Zeitschrift für wissenschaftliche Biologie (Abteilung B) edited by R. Goldschmidt, W. von Möllendorff, H. Bauer, J. Seiler. Vols. 2–28 (1938) edited by R. Goldschmidt and W. von Möllendorff. Vols. 29–33 (1944) as: Zeitschrift für Zellforschung und mikroskopische Anatomie, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie, edited by W. von Möllendorff and J. Seiler, from Vol. 34 without the subtitle, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie. From Vol. 34 (1949) edited by W. Bargmann, J. Seiler; from Vol. 53 (1960) edited by W. Bargmann, B. Scharrer, J. Seiler; from Vol. 83 (1967) edited by W. Bargmann, D.S. Farner, A. Oksche, B. Scharrer, J. Seiler; from Vol. 125 (1972) edited by W. Bargmann, D.S. Farner, F. Knowles, A. Oksche, B. Scharrer. Beginning with Vol. 125 (1972) with the subtitle Cell and Tissue Research, beginning with Vol. 148 (1974) under the title Cell and Tissue Research and the subtitle Continuation of Zeitschrift für Zellforschung und mikroskopische Anatomie and beginning with Vol. 235 (1984) under the title Cell and Tissue Research. Beginning with Vol. 164 (1975), edited by W. Bargmann, D.S. Farner, B. Loftis, A. Oksche, B. Scharrer and L. Vollrath; As of Vol. 193 (1978), edited by D.S. Farner, B. Loftis, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath; from Vol. 227 (1981), edited by D.S. Farner, B. Loftis, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath; from Vol. 228 (1983), edited by D.S. Farner, D.E. Kelly, B. Loftis, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath. Beginning with Vol. 235 (1984), title changed to Cell and Tissue Research (no subtitle). As of Vol. 251 (1988), edited by H. Altner, D.S. Farner, B. Loftis, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer, N.J. Strausfeld and L. Vollrath. Beginning with Vol. 252/3 (1988), M.J. Cavey became one of the editors. From Vol. 254/1 (1988), edited by H. Altner, M.J. Cavey, B. Loftis, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer, N.J. Strausfeld and L. Vollrath. Starting with Vol. 268/1 (1992), J.R. Sladek became one of the editors. As of Vol. 275/1 (1994) B. Russell became one of the editors.

Published: Vols. 1–33 (1924–1947) Julius Springer, Berlin, Vols. 34–35 (1948–1950) Springer, Wien, from Vol. 36 (1951) Springer, Berlin, Heidelberg.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities

at the institute where the work has been carried out; that if and when the manuscript is accepted for publication the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0302-766X, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa, K1A OS2, Canada (Tel: 613-9 93-92 51 FAX: 613-9 52-82 43; e-mail: cisti.docdel@nrc.ca).

This journal is included in the Springer Journals Preview Service, i.e. the tables of contents and BiblioAbstracts are available via Internet several weeks before the new issue reaches the subscribers. Tables of contents are free of charge; BiblioAbstracts are available for a small annual fee. Details can be obtained by sending an e-mail message containing the line help to svjps@vax.ntp.springer.de.

Contents of Volume 281

- chi MV, Figueroa JM, González Nicolini V, Villar MJ, Tramezzani JH: NPY- and CGRP-like immunoreactive nerve fibers in the testis and mesorchium of the toad (*Bufo arenarum*) 375-378
- Yidey CVP → Quarrie LH
- kamine A → Yoshimine Y
- ekster HA, Wal J-W van de, Veenendaal T: Interaction of force transmission and sarcomere assembly at the muscle-tendon junctions of carp (*Cyprinus carpio*): ultrastructure and distribution of titin (connectin) and α -actinin 517-524
- lsmahbobi G: Adhesion of intermediate filaments and lipid droplets in adrenal cells studied by field emission scanning electron microscopy 387-390
- magai T → Kumamoto K
- asai J → Kasai K
- ishida K → Umemoto M
- maumann O, Lautenschläger B: Immunolocalization of the Na,K-ATPase in photoreceptor cells of the moth *Manduca sexta* - evidence for Na,K-ATPase on both the nonmicrovillar and the microvillar domains of the plasma membrane 119-126
- ecchetti E → Locci P
- benvenuti S → Zecchi Orlandini S
- Bernabei PA → Zecchi Orlandini S
- ickel D → Wrobel K-H
- Bigaj J → Miodoński AJ
- Blomgren K → Thyberg J
- Boyle KS → Gavazzi I
- Brandi ML → Zecchi Orlandini S
- Bright NA, Ockleford CD: Ultrastructural distribution of endogenous immunoglobulin-G in human term amniocorion 367-374
- Castellucci M → Kohnen G
- Chaponnier C → Di Rosa I
- Cheng H-W, Chiang A-S: Autophagy and acid phosphatase activity in the corpora allata of adult mated females of *Diptoptera punctata* 109-117
- Chiang A-S → Cheng H-W
- Chun M-H → Lee M-Y
- Chung J-W → Lee M-Y
- Cooke IM → Keller R
- Counis R → Pelletier J
- Cowen T → Gavazzi I
- Croll RP → Jackson AR
- Croll RP → Too CKL
- Czaja K → Majewski M
- Dahlmann A → Düring M von
- Dahrmann G → Grozdanovic Z
- Derby IA, Sernia C: In situ hybridization and immunohistochemistry of renal angiotensinogen in neonatal and adult rat kidneys 197-206
- DeJoseph MR → Hawkins RA
- Di Rosa I, Panara F, Fagotti A, Simoncelli F, Chaponnier C, Gabbiani G, Pascolini R: Expression of α SM actin in terrestrial ectothermic vertebrates 501-506
- Dirksen H → Helle J
- Domoto T, Teramoto M, Tanigawa K, Tamura K, Yasui Y: Origins of nerve fibers containing nitric oxide synthase in the rat celiac-superior mesenteric ganglion 215-221
- Dryjski M → Thyberg J
- Düring M von, Fricke B, Dahlmann A: Topography and distribution of nerve fibers in the posterior longitudinal ligament of the rat: an immunocytochemical and electron-microscopical study 325-338
- Eckert M → Helle J
- Edgar D → Gavazzi I
- Erjefält I → Erjefält JS
- Erjefält JS, Erjefält I, Sundler F, Persson CGA: In vivo restitution of airway epithelium 305-316
- Erlinger R: Glycosaminoglycans in porcine lung: an ultrastructural study using Cupromeronic Blue 473-483
- Evans PD → Swales LS
- Fagotti A → Di Rosa I
- Faszewski EE, Kaltenbach JC: Histology and lectin-binding patterns in the skin of the terrestrial horned frog *Ceratophrys ornata* 169-177
- Fernández-Llébrez P → Mancera JM
- Figueroa JM → Achi MV
- Fink T → Nohr D
- Fontaine YA, Pisam M, Le Moal C, Rambourg A: Silvering and gill "mitochondria-rich" cells in the eel, *Anguilla anguilla* 465-471
- Formigli L → Zecchi Orlandini S
- Franchi A → Zecchi Orlandini S
- Fricke B → Düring M von
- Fujinaga K → Moriya M
- Fukazawa K → Umemoto M
- Furness JB → Li ZS
- Gabbiani G → Di Rosa I
- Gavazzi I, Boyle KS, Edgar D, Cowen T: Reduced laminin immunoreactivity in the blood vessel wall of ageing rats correlates with reduced innervation in vivo and following transplantation 23-32
- Gaynard V, Thiéry J-C, Thibault J, Tillett Y: Efferent projections from the retrochiasmatic area to the median eminence and to the pars nervosa of the hypophysis with special reference to the A15 dopaminergic cell group in the sheep 561-567
- González Nicolini V → Achi MV
- Gosrau R → Grozdanovic Z
- Grafstein B → Wang J
- Grau S → Keller R
- Grozdanovic Z, Nakos G, Dahrmann G, Mayer B, Gosrau R: Species-independent expression of nitric oxide synthase in the sarcolemma region of visceral and somatic striated muscle fibers 493-499
- Guglielmone R: Cerebrospinal fluid-contacting neurons in the paraventricular organ and in the spinal cord of the quail embryo: a fluorescence-histochemical study 163-168
- Han S-H → Lee M-Y
- Harrison TA, Stadt HA, Kumiski D, Kirby ML: Compensatory responses and development of the nodose ganglion following ablation of placodal precursors in the embryonic chick (*Gallus domesticus*) 379-385
- Hawkins PA → Hawkins RA
- Hawkins RA, DeJoseph MR, Hawkins PA: Regional brain glutamate transport in rats at normal and raised concentrations of circulating glutamate 207-214
- Hedin U → Thyberg J
- Helle J, Dirksen H, Eckert M, Nässel DR, Spörhase-Eichmann U, Schürmann F-W: Putative neurohemal areas in the peripheral nervous system of an insect, *Gryllus bimaculatus*, revealed by immunocytochemistry 43-61
- Hendrickx AG → Pow CST
- Hendry KAK, Lancelott MJ, Knight CH, Kempson SA, Wilde CJ: Protein synthesis in tissues cultured from the bovine hoof 93-99
